

Work Smarter in 30 with **Microsoft 365 Copilot**

See how AI can help your team save time, reduce repetitive work, and get more done with a guided 30-day Microsoft 365 Copilot trial.

At **[PARTNER NAME]** , we're helping businesses discover the real-world value of Microsoft 365 Copilot through a structured 30-day experience.

This guided trial enables up to 25 users to spend just five minutes a day exploring practical AI-powered scenarios across Outlook, Teams, Word, Excel, PowerPoint, and Copilot Chat.

By the end of the month, you'll understand where Copilot creates value in your organisation and how AI can help your people work smarter every day.

Start Your Copilot in 30 Trial

What Is Work Smarter in 30?

Work Smarter in 30 is a guided Microsoft 365 Copilot trial designed to help your team quickly discover practical ways to use AI in everyday work.

Rather than learning through training sessions or theory, users work through real business scenarios using daily prompts and guided activities.

Benefits

Improve productivity in daily workflows

Reduce time spent on repetitive tasks

Create content faster

Get more value from meetings

Discover AI-powered ways of working

Build lasting Copilot habits

Your 30-Day Journey

Four focused weeks, each building on the last - practical AI skills embedded into your team's real daily work.

Week 1

Take Control of Your Inbox

Use Copilot in Outlook to:

- Summarise long email threads
- Draft professional replies
- Create status updates
- Catch up faster after time away

Week 2

Get More from Every Meeting

Use Copilot in Teams to:

- Recap meetings instantly
- Track actions and decisions
- Catch up when joining late
- Create follow-up communications

Week 3

Create in Less Time

Use Copilot across Microsoft 365 Apps to:

- Draft documents
- Build presentations
- Analyse data
- Summarise information faster

Week 4

Automate Repetitive Work

Explore:

- Researcher Agent
- Analyst Agent
- Copilot Pages
- Copilot Cowork capabilities

Why Microsoft 365 Copilot?

Microsoft 365 Copilot works within the applications your employees already use every day, helping them stay productive without changing how they work.

Whether you're writing emails, collaborating in Teams, creating presentations, analysing spreadsheets or researching data, Copilot helps users complete tasks faster and with greater confidence.
