

Cloud Viability Assessment

Unlock Cloud Potential with a free Cloud Viability Assessment for Azure

Free Migration Assessment: Ingram Micro conduct a Microsoft approved assessment and supply a comprehensive report.

Pre-requisite: 10+ servers not in Azure. *If you have less than 10 servers we can still complete a basic free Migration Assessment*

Microsoft funding: Potentially £1000s of Microsoft funding available to support customers migrating to Azure

Ingram Micro's Cloud Viability Assessment for Azure is designed to facilitate and accelerate workload migration to Azure. By providing a detailed infrastructure analysis alongside cost and license optimisation, it sets the foundation for meaningful cloud transformation planning.

What's Included:

- Managed assessment program using Microsoft tools.
- Rapid discovery of existing workloads and their utilisation metrics.
- An in-depth report detailing projected Azure operating costs.
- Diagram of potential Azure target landing zone based on CVA results.
- Qualification check for eligible Azure funding programs.

Provide customers a free, no-obligation CVA to accelerate their transformational Journey!
