Take a walk with Ingram Micro to find out how

Get a high-performing network with the right number of access points in the right locations, save countless hours in Aruba Central setup, and simplify ongoing troubleshooting and optimisation.

$10B
Worldwide Enterprise wireless market revenue*
*IDC – Worldwide Quarterly Wireless LAN Tracker

$31.4%
Enterprise wireless market year-on-year revenue growth*

60% of networking professionals spend 8 hours a week doing nothing but Wi-Fi troubleshooting

A fully integrated solution for always-awesome Wi-Fi

When setting up a wireless network, it is critical to **understand the physical environment** as well as **user and business demands**, to help create the foundations for a truly seamless Wi-Fi experience.

Ekahau is now integrated with **Aruba Central** to automatically and accurately identify and map **Access Point locations** – plan, design, validate and troubleshoot your Wi-Fi network.

Easily collect Wi-Fi Data
A simple walk with the Ekahau Sidekick 2 enables anyone to collect the world's most accurate Wi-Fi data, even without a floor plan.

Optimise your Network
Ekahau Optimiser turns Sidekick 2 data into easy configuration changes that can be implement in minutes.

Unlock the full value of Aruba Central
Instantly and accurately provision wireless dashboard and take advantage of Aruba Central's location-based analytics.

Stay ahead of Changes
Perform regular health checks with the Sidekick 2 to visualise network issues like low coverage, sources of interference, connectivity issues, and more.

Full support for HPE Aruba Products
No matter the Wi-Fi environment or requirements, Ekahau lets you design the highest-performing wireless networks using HPE Aruba APs and antennas.

Get an AI-Assisted Wi-Fi design in minutes
Define the physical environment, select network requirements and access points, and get a fast and reliable Wi-Fi design in minutes.

Simulate Wi-Fi Upgrades
See how networks would perform with different AP models, including upgrades to 6 GHz access points.

Ensure Deployment is a Success
Automatically calculate signal attenuation for unique environment with the Sidekick 2 to guarantee Aruba Wi-Fi network installation goes smoothly.

An Ingram Micro Exclusive Offer

With Ekahau and Aruba, you can effortlessly optimise your network to stay ahead of changes and efficiently troubleshoot for less network downtime to get a high-performing, reliable network every day. Ingram Micro is with you every step of the way.

Software	Hardware	Subscription	Single Pane of Glass

Ekahau AI Pro
One-time investment in software

Powerful Wi-Fi planning and AI design for the most reliable, best performing 2.4/5/6GHz wireless networks. Design, analyse, optimise and troubleshoot enterprise Wi- Fi networks.

*Ekahau Connect Subscription required

Ekahau Sidekick 2
One-time investment in hardware

The fastest, most precise Wi-Fi testing and measurement device, supercharged and tuned for 2.4/5/6 GHz. Walk to collect measured data to validate & optimise any wireless network.

*Ekahau Connect Subscription required

Ekahau Connect Subscription
Annual software maintenance & support

- Optimiser Step-by-Step Configuration Guides
- Survey Mobile App Wi-Fi Health Validation
- Analyser Mobile App Live Troubleshooting
- Insights Wi-Fi Performance Analytics
- Packet Capture
- Cloud Project Sync with Guest Sharing
- Software & Firmware Updates
- Latest AP Models & Dashboard Integrations
- Global Customer Support

Sidekick 2 required to use all features

Aruba Central
A cloud-managed solution that has built-in networking features – manage, health check, troubleshoot, deliver intelligent mobile-first experiences and security, all through a single pane-of-glass.

Aruba Central also helps reduce costs by unifying management of all network infrastructure, preempt issues and continuously optimise networks.

Ingram Micro. Global Reach. Local Touch.

Compute represents a profitable opportunity for our Partners, to accelerate their HPE business and **grow long-term revenue**

Solution Architecture
We work with a range of Vendors and Partners to coordinate the development of technology solutions that solve real world problems.
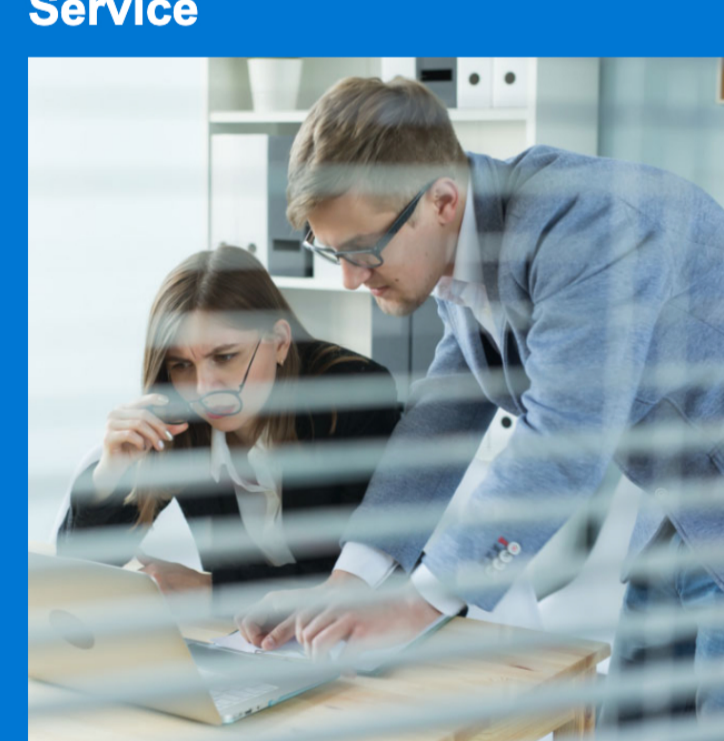

Sales Enablement
Our enablement program is focused on Partners who understand rapidly growing opportunities and are ready to get started on the HPE journey.

Technical Support
We'll work with your sales and technical teams to understand the technology, identify opportunities and guide you through the first deployments.

Business Intelligence-as-a-Service
We're continually onboarding technology Partners to help extract and get better value from data collected by our team.

Build, Deploy, Maintain & Support
By working closely with our deployment Partners, we aim to provide the latest knowledge and expertise.

Marketing Enablement
As well as our 1:1 enablement program, our internal marketing agency can support with white labelled collateral, webinars, case studies, campaigns and more.

Cloud Services
Our cloud teams can offer a range of support around cloud infrastructure and services for any given use case.

Financing
Our partners can leverage Ingram Micro's established financing capabilities to provide any technology solution, helping turn CAPEX to OPEX costs for customers.
